SUMMARY

Computer Science Engineering graduate with hands-on experience in software development, backend systems, and machine learning projects. Skilled in Java, Python, SQL, and modern development tools with a strong foundation in problem-solving and data structures. Adaptable to new technologies and passionate about building scalable, efficient, and real-world software solutions.

EDUCATION

B.Tech (Computer Science Engineering) 2022 – 2026
Maharishi Markandeshwar University, Mullana | 8.4 CGPA

Senior Secondary (Class XII), CBSE 2022
New Happy Public School, Bilaspur, Haryana | 85.6%

Secondary (Class X), CBSE 2020
New Happy Public School, Bilaspur, Haryana | 82%

TRAINING AND INTERNSHIP

OctaNet Services Pvt. Ltd. 06/2024 – 07/2024
Software Development Intern

- Utilized technologies like HTML, CSS, JavaScript, and Java to deliver high-quality solutions within deadlines.
- Enhanced user engagement and client satisfaction through ongoing updates and support.

SKILLS & INTERESTS

Skills: Java | Python | C# | JavaScript | Data Structures

Database Management: SQL | MySQL

Frameworks/Libraries: Spring Boot | ASP.NET Core | Scikit-learn | Pandas | NumPy | Flask | TensorFlow

Tools: Git | GitHub | Android Studio | Postman | Eclipse | VS Code | Arduino IDE | PyCharm

Methodologies: Agile/Scrum | CI/CD Concepts

Soft Skills: Problem-Solving | Team Collaboration | Adaptable | Enthusiastic | Determined | Critical Thinking

PROJECTS

Explainable AI-Based Fake News Detection

Machine Learning Developer

- Tech Stack: Python, Scikit-learn, Pandas, NumPy
- Developed a machine learning model for fake news classification.
- Performed text preprocessing and feature extraction.
- Implemented explainability techniques for model predictions.
- Evaluated performance using accuracy and other metrics

FinTrack

Java

- Tech Stack: Java, OOPs, MySQL, JDBC
- Developed a banking management system for handling customer and account operations.
- Implemented features like account creation, deposits, withdrawals, and transaction tracking
- Designed a modular codebase using object-oriented principles.
- Improved user experience by simplifying banking workflows.

TNIGRS - Online Land Registration and stamps

Java Developer

- Tech Stack: Java, Spring Boot, SQL
- Contributed to digitizing property registration processes.
- Worked on user data handling, document processing, and workflows
- Collaborated to improve system performance and efficiency.

CERTIFICATIONS

- ServiceNow Certified System Administrator (CSA) - Certification No. 27076154
- ServiceNow Certified Application Developer (CAD) - Certification No. 27253236
- Octanet Training and Internship
- Google Cloud Arcade
- GUVI & HCLTech – Gen AI Skills 2026
